Bridgewater Pediatrics Covid 19 Response

1. All non-Covid compatible symptom patients are seen in office Mon-Thurs 8am-4:30pm and Friday 8am-3:30pm.
2. Patients with Covid compatible symptoms (fever, chills, cough, difficulty breathing, sore throat, body aches, headaches, loss of taste or smell) will enter the office through the back door, Mon-Thurs 5pm-7pm, Fri 4pm-6pm.
3. We ask that only one parent or guardian accompany the child to an appointment if possible.
4. Our staff are making calls to families that have pre-scheduled appointments to do a Covid-19 screening to ensure caregiver, patient and all members of the household are healthy.
5. For the safety of our patients and employees we have transitioned to virtual check-ins to limit the amount of people present in the waiting room. Please arrive 10 minutes prior to your appointment time and call the office from your vehicle and choose option #1 to check-in. Staff will then call you, meet you at the office door, take you and your child's temperature and then escort you to the exam room.
6. All of our clinical staff wear N95 masks, gloves, and protective eyewear when we are serving our patients.
7. We require all of our patients and guardians (over the age of 2) to wear a mask while in the building, unless advised by the medical staff. Masks will be provided if you do not have one. Please contact the office prior to entering if you need a mask.
8. All of our exam rooms are completely disinfected after each patient visit. Our waiting room is sanitized throughout the day.
