

Children's Tylenol® Dosage

Tylenol = Acetaminophen

Tylenol can be given every 4 hours.

The AAP recommends choosing either acetaminophen (Tylenol®) **or** ibuprofen (Motrin®). It is NOT recommended to alternate between both medications.

		Children's Suspension liquid (160mg/5ml)	Children's Soft Chew Tablets 80mg each	Junior Strength Chewables 160mg each
Weight	Age
