

10/07/2009

Dear Parent,

Bridgewater Pediatrics is pleased to offer a child development assessment tool that helps you understand your child's developmental progress. Your child's progress in these important areas is very important to us, too. Early identification and treatment of developmental problems is essential to promote optimal child development.

Please complete the Chadis questionnaires prior to your child's next well visit or camp/school physical. Chadis is also an excellent tool in the diagnosis of ADHD. Teachers may provide online input for your child with this tool, which is very helpful to us.

To use CHADIS, please go online to register at <http://www.chadis.com/> and follow **all** prompts during this Initial Registration so that you can begin using CHADIS for your next office visit. On the home page, click "New Users Register Here" and as a **new user**, you will be asked to enter the "Invitation Code" that links to our office. This is our office telephone number.

5086978116

Once you enter the site, you will be asked to create a username and Password for yourself. Your email address is the best username, if you have one. Write your new username and password below and please keep this letter.

My Username	My Password
-------------	-------------

If you have an appointment within the next two weeks, please go to CHADIS before the appointment. Your doctor has assigned questionnaires for that visit.

Thank you for your time and effort in completing Chadis questionnaires. Your use of Chadis helps us understand your child better. It also helps us guide you in the important task of enhancing your child's developmental progress.

Thank you for choosing Bridgewater Pediatrics!

Fred D. Kern M.D.
Debra A. Picerno, M.D.
